Driving Offence Statement

I realise that my driving record is extensive. I should have disputed 4 of the speeding offences because I had a defence, but I thought I would accept the punishment. With regards to this drug driving offence, I deeply apologise, I have provided a letter of apology, a statement for the court, and some character references.

I had not used substances for three and a half years, but I relapsed recently due to my schizophrenia. I have dome the Traffic Offenders Intervention Program and am again abstaining from stimulants. I am getting drug counselling at Hornsby Hospital. I would request that I be referred to the MERIT program.

In 2018 I went to Hornsby Police station and asked them if they could help me find an advanced driver training course. I did this because I knew my driving was poor and my record was getting increasingly bad. The officer who attended the counter said he did not know of any advanced driver training. He recommended using Google to locate a driving instructor. He did not recommend the TOIP, or the Transport NSW Safer Drivers Course, or the NRMA Driver Assessment.

Please note that I had myself arrested in for possession of methamphetamine in an attempt to draw attention to your corrupt behaviour, and that of the Judge who sits on the Mental Heath Appeal Tribunal. When I went to my computer backups to retrieve the exact date, I discovered that all my Microsoft Accounts had been deleted, and the main account had pornography uploaded into the One Drive directories. The person responsible for this is identified in my Scam Watch reports, in the accompanying Statutory Declaration, and when I reported these criminal cyber hacking activities to 8 Hornsby Police officers (see attachment), in addition to s/C Spencer (E62412741), Cst Marteen 56518@Police.nsw.gov.au (E89235782) and Cst Jason Clifford, all at Hornsby Police Station. I rely on the Police and the judiciary to remain objective and to tell the truth.

I obviously have no contempt for the law.

But I am disillusioned that you don't realise that the individuals you have been colluding with on the 21/12/23 & 22/12/23 are the same individuals who have stolen my identity, robbed me, and led you to sentence me before I was even notified of the court date pertaining to this drug driving matter. This is why I resumed eating methamphetamine, and why my driving record is so poor. I am always squirming with fear and trying to be respectable, in the face of being dealt with corruptly from people in positions of authority. How do you think I feel when I hear from someone that you have sentenced me, at the insistence of JD, Before I have been charged with any drug driving offence?

I have been told that you discussed this case over the phone with a barrister on the 21 December 2023 at approximately 1707 hours, and entered into an agreement with the barrister that the sentence would include a 12 month period of incarceration. Did you realise when discussing this case, that the conversation was being influenced by a girl from Melbourne, that has a $2.1m house, and that she has never submitted a tax return to the ATO? Did your honour think to ask the barrister in question, what legal firm he worked for, and why he was privy to the case details that were in your honor's possession? Whilst agreeing on the sentence, did your honor take into account the possibility that I would learn of this collusion, and bring it to your attention? May I enquire how you think I was informed about this conversation between you and this barrister?

It is inappropriate and unacceptable for your honour to decide, or even to discuss, the outcome and the sentence for a case, prior to the oral fluid test results, prior to the court case being heard, prior to a plea and a possible defence, in the absence of a transcription, with an unqualified person, prior to receiving the prosecutions submission, prior to receiving the Police report, and prior to the case being listed in the court records.

May I suggest that there is a basis for you to stand down from this case, and have it presided over by another judge, because you have been colluding with someone. Have you declared to the DPP that you have talked about and decided about this case with an unidentified person? Is there a right for you to discuss the outcome of a case, prior to it being heard in court and transcribed? How could you know what my plea would be, and if I would present a successful defence? What was the name of the person you had the phone call with? Do you recall that I am a Certified Victim, under s375.2 and 375.3 of thew Commonwealth Criminal Code Act, 1995?

Since this case cannot proceed unless you discuss the veracity of these allegations, the sentence should be $3,300 fine and automatic licence disqualification for a period of 12 months.

Are you going to report yourself to the Police and declare you conflicts of interests and criminal behaviour, as I did?

Drug Driving Facts And Data

Description	Data	Implication
Age and gender of persons found guilty of drug driving, July 2015 to June 2016	50-59 = 6.8%
